

Application

Ideal for use where Lead-Free* valves are required. Designed for installation on potable domestic and commercial water systems such as well pump systems and applications requiring tight seating. For use as a positive backstop to eliminate reduced pressure principle backflow preventer discharge caused by pressure fluctuations or water hammer.

Standards Compliance

- UL® Classified - ANSI/NSF Standard 61, Annex G*
(*0.25% maximum weighted average lead content)

Materials

Main valve body Lead Free Brass
Poppet Polyetherimide
Seat NBR
Spring Stainless Steel, 300 series

Features

Sizes: 1/2", 3/4", 1", 1 1/4", 1 1/2", 2"

Maximum working water pressure 400 WOG
Maximum working water temperature 210°F
End connections Threaded ANSI B1.20.1
